**Maryknoll Statement on U.S. Repeal of the Endangerment Finding**

WASHINGTON, D.C.—By repealing the Endangerment Finding, the United States demonstrates again that the climate crisis is a moral crisis. This reckless retreat from scientific reality abandons the legal foundation needed to curb the emissions fueling our climate emergency.

As people of faith, we know the "cry of the earth" and the "cry of the poor" are one. By dismantling these protections, the United States abdicates its duty to the most vulnerable. We must return to science-based policy to protect our common home.

*The Maryknoll Office for Global Concerns (MOGC) represents Maryknoll missionaries, who are Catholic men and women serving in impoverished communities around the world. The MOGC provides analysis and advocacy on issues of justice, peace and the integrity of creation that affect the countries and communities where Maryknoll missionaries serve.*
